

SAIF RASHEED

Generative AI Associate | WordPress Developer | AI Automation Specialist

+92-329-512-9669 | saifdevcore@gmail.com | Islamabad, Pakistan | linkedin.com/in/saif-dev-core

PROFESSIONAL SUMMARY

Generative AI Associate and WordPress Developer with over two years of practical experience in AI-assisted workflows, web development, and digital automation. Currently contributing to generative AI product development at Hypervail LLC, a US-based AI company, working on LLM-powered workflows, prompt engineering, and AI agent systems. Delivered 10 or more WordPress websites for international clients across the UK and US, handling full project lifecycles from brief to post-launch support. Computer Science student at SZABIST University with additional certifications in AI, software engineering, and Microsoft Office. Actively building skills in Python, backend development, and AI tooling. Open to generative AI, AI automation, and web development roles both remotely and internationally.

WORK EXPERIENCE

Generative AI Associate

February 2026 - Present

Hypervail LLC | Remote | US-Based AI Company

- Contribute to generative AI product development at a US-based AI company, supporting LLM-powered workflows and AI agent design for client-facing projects
- Design and refine prompt engineering pipelines across multiple use cases, improving model output consistency and response accuracy
- Collaborate with a cross-functional remote team across international time zones to deliver AI automation features and intelligent system integrations
- Manage deliverables independently without direct supervision, maintaining consistent output quality across a fully remote international workflow
- Research and evaluate emerging generative AI tools and models, applying findings directly to active project development

WordPress Developer and Designer

January 2024 - Present

Freelance | Remote | International Clients across UK, US and other markets

- Designed and delivered 10 or more responsive, SEO-optimized WordPress websites for international clients, managing full project lifecycles from brief to launch
- Built WooCommerce e-commerce stores and custom Elementor layouts tailored to each client's brand, goals, and target audience
- Optimized website speed, mobile responsiveness, and on-page SEO across all projects, improving site performance and search visibility for clients
- Managed complete client communication across different time zones, covering requirements gathering, revisions, and post-launch support
- Used AI-assisted design tools to produce brand identities, logos, and visual content, delivering professional results within tight timelines

Chatbot Development

2025 - 2026

Self-Learning Projects and Freelance | Remote

- Built and tested chatbot solutions using WordPress plugins and no-code platforms such as n8n and Chatbase, exploring automated conversation flows and AI-powered responses
- Worked with the ChatGPT API in personal projects, handling API calls, structuring prompts, and embedding AI responses into web pages and WordPress sites
- Experimented with tools including GPTCodes.ai to build and deploy simple chatbot interfaces, developing a working understanding of chatbot logic, intent handling, and response design
- Applied self-directed learning through practical projects and video-based study to build foundational knowledge in AI chatbot development and no-code automation workflows

SKILLS

Generative AI: Generative AI, Large Language Models, Prompt Engineering, AI Agents, ChatGPT API, LLM Workflow Design, Natural Language Processing, AI Automation

Web Development: WordPress, Elementor, WooCommerce, SEO Optimization, Responsive Web Design, HTML, CSS, E-Commerce Development, Website Performance Optimization

Chatbot and Automation: Chatbot Development, n8n, Chatbase, No-Code Automation, API Integration, Workflow Automation

AI Tools and Design: AI-Assisted Branding, Logo Design, Visual Content Creation, AI Design Tools

Programming: Python, Backend Development Fundamentals

Professional: Remote Collaboration, International Client Management, Project Management, Cross-Functional Teamwork, Microsoft Office Suite

EDUCATION

Bachelor of Science in Computer Science

January 2024 - June 2028

SZABIST University, Islamabad, Pakistan | Currently 4th Semester | Expected Graduation 2028

- Core coursework: Data Structures, Algorithms, Operating Systems, Database Systems, Software Engineering
- Enrolled in Agentic AI course alongside degree program

Intermediate ICS - Information Communication Sciences

Completed 2022

Punjab College, Pakistan

CERTIFICATIONS

Agentic AI Course Air University, Islamabad

2024 - 2025

New York Jobs CEO Council Software Engineering Job Simulation NYJTC

2024

ChatGPT Expert Professional Certification Udemy

August 2023

Microsoft Office Specialist - PowerPoint Associate Certiport

January 2023

Website Designing Diploma Joher Institute

July 2022

Information Technology Diploma Joher Institute

July 2022
